Winterization of vessel includes the following:

1. Required amount of non-toxic antifreeze run through engine(s), freshwater system including water tank, holding tank, sump pumps, dockside water connections, water heater, air conditioning, ice maker, etc.
2. Fuel stabilizer added to fuel tanks if requested (Yamaha outboards will have a mixture of aviation grade fuel and fogging oil ran through the fuel system)
3. Vessel health inspection including batteries, bilge pumps, and transducer
4. Disconnection of battery loads

PYC recommends boat owners perform the following prior to PYC beginning work:

1. Pump out and flush holding tank *PYC does not provide pump out service
2. Empty refrigerators, remove perishables, and valuables *PYC will not be responsible for items left
3. Top off fuel tanks
4. Ensure all batteries are fully charged

All Winter Storage is handled by Eastern Bay Yachting Center. Please let us know if you are interested in Winter Storage.
